Yujing Wu | Curriculum Vitae

77 Avenue Denfert-Rochereau, 75014 Paris, France
E-mail: Yujing.Wu@obspm.fr; yujingwu.research@gmail.com | Tel: (+33) 7 75 72 33 22 | https://yujing-wu.github.io/

Academic and Research Positions

- **Postdoctoral Researcher** Mar 2024 –present
  LTE, CNRS, Paris Observatory, PSL Université, Sorbonne Université, Paris, France
- **Staff Associate II (Part-Time)** May 2022 – Sep 2023
  Marine Geology and Geophysics Division, Lamont-Doherty Earth Observatory, Columbia University, New York, NY, USA
  Research Area: Cyclostratigraphy

Education

- **Doctor of Natural Science** Sep 2019 – Jan 2024
  School of Earth and Space Sciences, Peking University, Beijing, China
  Major: Structural Geology
- **Bachelor of Science** Sep 2015 – Jul 2019
  School of Earth and Space Sciences, Peking University, Beijing, China
  Major: Geochemistry
- **Bachelor of Economics** Sep 2016 – Jul 2019
  National School of Development, Peking University, Beijing, China
  Major: Economics

Research Interests

Quantitative Geoscience; Earth System Science; Earth–Moon System Evolution; Astronomical Forcing; Astrochronology & Cyclostratigraphy; Paleoclimatology; Geochronology; Geochemistry; Bayesian Inference; Geological Time-Series Analysis; Big Earth Data

Publications

Peer-reviewed Publications

Fellowships and Awards (Selected)

- Excellent Graduate (doctoral level), Beijing Municipal Education Commission, 2024
- President Fellowship, Peking University, 2022– 2023
- China Aerospace Science and Technology Corporation Scholarship, Peking University, 2021– 2022
- Sun Hung Kai Properties Scholarship, Peking University, 2019
- Excellent Graduate (undergraduate level), Beijing Municipal Education Commission, 2019
- Langrun Youth Scholarship, 2017 – 2018
- Outstanding Field Geology Report Award, Peking University, 2019
- Cyrus Tang Scholarship, Peking University, 2015 – 2019

Invited Talks and Conference Presentations (Selected)

Invited Talks

- Invited research seminar, Peking University, Sep 2025.
  Title: A 650-Myr history of Earth's axial precession frequency and the evolution of the Earth-Moon system derived from cyclostratigraphy

Conference Presentations

6. **Wu, Y.**, Laskar, J., Westerhold T., et al., (2026).
   AstroGeoFit in action. Towards an Eccentricity-Based Astronomical Time Scale for 40–100 Ma.
   GSA 2026 Penrose Conference, Iowa City, IA, USA, May 30–Jun 5.

5. **Wu, Y.**, Laskar, J., Westerhold T., et al., (2026).
   AstroGeoFit in action. Towards an Eccentricity-Based Astronomical Time Scale for 40–100 Ma.
   EGU General Assembly 2026, Vienna, Austria, May 4–8.

4. **Wu, Y.**, Malinverno, A., Meyers, S. R., et al., (2023).
   Earth's axial precession frequency, length of day, lunar distance, and insolation periodicities over the past 650 Myr from cyclostratigraphy.
   AGU Fall Meeting 2023, San Francisco, CA, USA, Dec 11–15.

3. **Wu, Y.**, Fang, X., & Ji, J., (2023).
   Implications of zircon Th/U for global continental crustal evolution and geodynamics.
   EGU General Assembly 2023, Vienna, Austria, Apr 24–28.

2. **Wu, Y.**, Fang, X., Jiang, L., et al., (2022).
   Very long-term periodicity of episodic zircon production and Earth system evolution.
   AGU Fall Meeting 2022, Chicago, IL, USA, Dec 12–16.

1. **Wu, Y.**, Fang, X., Liao, S., et al., (2018).
   Great events of Chinese continental evolution: implications from zircon U-Pb geochronology database.
   AGU Fall Meeting 2018, Washington, DC, USA, Dec 10–14.

Teaching Experience

Teaching Assistant, *Introduction to Earth Sciences*, undergraduate course, Peking University, Sep 2020–Jan 2021

Led tutorial and practical sessions; organized Q&A sessions; supervised a geology field trip; graded assignments and contributed to student assessment; occasionally substituted for the instructor in lectures. Approx. 60 teaching hours.

Student Mentorship

Xiaoyu Zhang – Visiting Ph.D. student, Paris Observatory, Jun 2026 – Present
Project: Reconstruction of the astronomical time scale of the Mesoproterozoic.

Can Cai – Visiting Ph.D. student, Paris Observatory, Jun 2026 – Present
Project: Reconstruction of climatic precession evolution during the Paleogene.

Muyuan Zhu – Undergraduate student, Peking University, Jul 2021 – Dec 2021
Project: Compilation and analysis of zircon U–Pb geochronology databases.

Professional Service, Workshops, and Outreach

- **Journal reviewer** for *Earth and Planetary Science Letters*, *GSA Bulletin*, *Scientific Reports*, and *Big Earth Data*.
- **Workshop co-host,** AstroGeoFit International Workshop, Paris, France, May 25–29, 2026.
  Contributed to the organization of the workshop and led hands-on practical sessions using the AstroGeoFit open-source software.
- **Session co-convener and co-chair,** "Fall Astronomical Forcing of Earth's Paleoclimate System" (PP53G), AGU Fall Meeting, Washington, DC, USA, Dec 2024.

Skills

- **Computational & Data Analysis Skills:**
  - Large-scale geoscientific data integration and database management
  - Time series analysis, signal analysis, and spectral methods for investigating multiscale geological records.
  - Bayesian statistics and probabilistic modeling
  - **AI/ML:** Python-based training in machine learning, deep learning, and artificial intelligence, with potential applications in geoscientific data analysis
- **Programming Languages:** Python, MATLAB, R, SQL, TRIP
- **Computing Tools:** Linux, Bash, SLURM, Git (GitHub/GitLab)
- **Languages:** Chinese (native), English (C1), French (B2)
